PROFESSIONAL SUMMARY

Front-End Developer with hands-on experience engineering scalable, responsive, and accessible web applications using React.js, JavaScript (ES6+), TypeScript, and Tailwind CSS. Proficient in modular component design, state management (Redux Toolkit, Context API), and integrating RESTful and FastAPI endpoints. Proven ability to optimize client-side rendering through route-level code splitting, lazy loading, and memoization. Strong foundation in software engineering principles, Agile/Scrum delivery, and full-stack fundamentals with Java, Spring Boot, and relational databases.

TECHNICAL SKILLS

Frontend Technologies: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Web Design

State Management & APIs: Redux Toolkit, Context API, RESTful APIs, FastAPI Integration, Axios, JSON, Fetch API

Backend & Database Fundamentals: Java, Spring Boot, MySQL, JDBC, Hibernate, Servlets, JSP, OAuth2, JWT, OOP

Developer Tools & Practices: Git, GitHub, Chrome DevTools, Postman, Jest, Agile/Scrum, SDLC, Clean Code, Linux

PROFESSIONAL EXPERIENCE

Levitica Technologies Pvt Ltd

Associate Software Engineer (Front-End)

Hyderabad, India

March 2025 - September 2026

- Architect and maintain scalable, responsive user interfaces using React.js, TypeScript, and Tailwind CSS across mobile, tablet, and desktop devices.
- Build modular, reusable UI component libraries and design tokens to standardize form validation, navigation menus, modals, and dynamic data tables.
- Integrate FastAPI and RESTful endpoints for user authentication, real-time data synchronization, and state management with robust client error handling.
- Enhance web performance and Core Web Vitals by implementing route-level code splitting ('React.lazy'), asset preloading, and computation memoization.
- Collaborate with backend developers, UI/UX designers, and QA engineers in daily Agile/Scrum standups, sprint reviews, and peer code reviews using Git.

WaveMaker Inc.

Software Engineering Intern (Front-End Integration)

Hyderabad, India

July 2024 - September 2024

- Developed modular frontend views for enterprise portals using JavaScript (ES6+), React.js, HTML5, CSS3, and Bootstrap.
- Connected client interfaces to backend REST services and validated Role-Based Access Control (RBAC) and OAuth2/JWT authentication workflows.
- Diagnosed cross-browser UI defects using Chrome DevTools and optimized relational database queries using Java, Spring Boot, and MySQL.

TECHNICAL PROJECTS

Project: Pharmacy Dispatch Platform (Pharm App)

Technologies: React.js, Tailwind CSS, JavaScript (ES6+), REST APIs, Git

Technologies: React.js, Tailwind CSS, JavaScript (ES6+), REST APIs, Git

- Built a responsive pharmacy management web application featuring live medicine inventory search, stock status indicators, and checkout flows.
- Designed mobile-first layouts using CSS Grid and Flexbox, with debounced search queries to eliminate redundant API requests and cut load latency.

Project: Responsive Analytics Dashboard

Technologies: React.js, Next.js, Redux Toolkit, Chrome DevTools, Git

2024

- Engineered an interactive analytics dashboard featuring centralized state management in Redux Toolkit, dynamic filtering, and modular charting components.
- Profiled client-side bundle size and asset loading via Chrome DevTools, improving Core Web Vitals and achieving a 95+ Google Lighthouse score.

EDUCATION

Sri Venkateswara College of Engineering

Bachelor of Technology (B.Tech) in Computer Engineering

Academic Record: CGPA 8.31 / 10.0

Tirupati, India

2020 - 2024

CERTIFICATIONS

- Microsoft Certified:** Azure AI Fundamentals (AI-900)
- Cisco Networking Academy:** CCNA (Introduction to Networks)
- Infosys Springboard:** JavaScript Certification (ES6+, DOM Manipulation, Asynchronous JS)
- NPTEL (IIT):** Cloud Computing & Database Management Systems (DBMS)
